

MBN Engineering, Inc. expands its engineering services.

MBN Engineering, Inc., Fargo, has expanded its engineering services to include electrical transmission design and construction administration services. Duane Boehning and Tom Kahl have been hired for the new electrical transmission group.

Duane Boehning is manager of the department and has more than 40 years experience in routing, surveying, right-of-way, engineering and administration of high voltage transmission lines throughout the upper Midwest. He graduated from North Dakota State College of Science, Wahpeton.

A graduate of Minnesota State Community and Technical College Moorhead, Kahl has more than 22 years of experience in drafting and engineering of civil and transmission line projects throughout the upper Midwest.
